SUMMARY

Passionate about information technology, I recently graduated with a two-year degree in computer science, specializing in systems and networks. Throughout my studies, I developed strong skills in network administration and infrastructure maintenance, ready to take on technical challenges to ensure the stability, security, and efficiency of network systems.

WORK EXPERIENCE

Head of Maintenance Team at ISTA NTIC 2 SIDI MAAROUF

2024 - 2025

- Monitoring of a network of 60+ workstations
- Corrective maintenance: Resolution of hardware/software incidents (PCs, servers, printers), user support (helpdesk).
- Preventive maintenance: System updates, network monitoring, backup management.
- Infrastructure management: Deployment and maintenance of network and system equipment.
- Security: Antivirus installation, vulnerability detection, user awareness training on cybersecurity risks.

Internship and Final Year Project at CIRCET MOROCCO

February 2025

- IT Help Desk
- Final Year Project: Installation and configuration of PfSense

Internship at LEONI Wiring Systems BOUSKOURA

July - August 2024

- Improvement of the method for consolidating and displaying LPA audit results

EDUCATION

Bachelor of Artificial Intelligence

2025 - 2026

- Faculty of Sciences Ben M'Sik Casablanca

Specialized Technician Diploma In Network And Systems Administration

2023 - 2025

- Institut Spécialisé de Technologie Appliquée (ISTA)

SCIENTIFIC BACCALAUREATE Specialization in Physics-Chemistry (BIOF)

2020 - 2023

- RIAD High School

CERTIFICATION

- CCNA 1: Introduction to Networks
- CCNA 2: Switching, Routing, and Wireless Essentials (IN PROGRESS)
- CS50's Introduction to Computer Science
- AWS Advanced – DevOps (ODCC Sidi Maârouf)

TECHNICAL SKILLS

- Linux and Windows administration
- Task automation
- Infrastructure virtualization
- Firewall setup and management: pfSense, netfilter
- Cloud computing: Microsoft Azure, AWS, GCP, OpenStack
- Network infrastructure management
- Script development: Shell, PowerShell
- DBMS: MySQL
- Modeling language: Merise
- Languages: HTML, CSS, C, Python
- Hypervisor implementation: Proxmox, Hyper-V, VMware ESXi

LANGUAGES

- Arabic: Native Language
- French: Bilingual Level
- English: Fluent Level

HOBBIES

- Volunteering
- Photography
- Reading
- Video games
